AGJ Systems & Networks is a Service-Disabled Veteran-Owned Small Business (SDVOSB) and is headquartered in its recently constructed 9000 square foot facility in Gulfport, Mississippi. In its 10th year of operation, AGJ is certified partners with technology leaders such as Dell, HP, IBM, Microsoft, and Cisco Systems. AGJ specializes in network design/management and system integration for small to medium business and tier two and three consulting for larger companies including Local, State, and Federal government. AGJ can be found on both GSA Schedule IT 70 and the Mississippi State EPL.
