Jacobs Technology Inc.

Facility Operating Services Contractor
for NASA

at

Stennis Space Center (SSC)

Stennis Space Center, MS 39529-6000

Jacobs Technology Inc. (Jacobs) is the prime contractor to NASA at Stennis Space Center and assumed the facility operations and services contract (FOSC) on August 28, 2007. In performing our services under the FOSC prime contract, Jacobs serves NASA and the various resident agencies located at SSC.

It is Jacobs' policy to promote the participation of Small Business in supplying materials and services required in our operation. Jacobs' success in encouraging participation of Small Business is essential for us to meet our contractual commitment to NASA SSC; however, Jacobs brings a history of recognizing the advantages in using Small Businesses in our day-to-day performance across the NASA complex.

If you would like to know more, please complete the attached Company Profile Form and return it to our office.
